If social media can't be linked, please link home page to program updates tab. Would love to have GME's social streams on home page if possible, though

When home button clicked, shows landing page (see printout)

When student tab clicked, goes to page with student profiles. (Students can only see people in their cohort)

- info options
- \* name (first/last)
  - \* group
  - \* school
  - \* grade
  - \* email
  - \* phone
  - \* social media handles

When mentor tab clicked, sends us to a list of program mentors/contact info (spreadsheet style, picture optional)

<u>pic</u>	name	company	specialty	email address	phone #
<u>pic</u>	"	"	"	"	"
<u>pic</u>	"	"	"	"	"

When workshop presentation tab clicked, each workshop powerpoint displayed. Students can view or download materials.

should be large images, full width of screen

When resources tab clicked, organized resource list appears. Categories/layout below.

↗  
(message board)

Group 3

Projects

- upload pitch deck
- assigned to @name
- incomplete in progress complete
- contact mentor
- assigned to @name
- incomplete in progress complete

members

- name
- name
- name
- name

each msg board shows group members in sidebar, message board and project list in body. Students can write messages/respond to previously posted messages, add tasks, @ other students/assign students to tasks by tagging their name, and mark tasks as incomplete, in progress, complete.

When message board tab clicked, users can access general program board for discussion/questions. All users can participate in discussion, tag people to questions/comments by @ name

hi, ms britney. Do we have class tomorrow @Britney

↳ reply

When updates tab clicked, directs to page with program updates

small calendar

March						
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24		

Calendar highlights program in-session days & topic when clicked

Weds, Mar 10

- get ready for next week's workshop by contacting your mentor to discuss your 30 second pitch

Tues, May 12

- next week is your pitch comp, practice!

Sat, May 19

- program cancelled

Those directives were for students/admins

Admins only will have 1 additional tab for cohorts. Each cohort will be coded and information (student profile/contact info) can be accessed

- Cohort 1 <sup>when clicked</sup> →    (see layout from student profile)
- cohort 2
- cohort 3
- cohort 4

Admins have access to make edits, upload docs, add program updates, view all content/profiles

Mentors will ~~connect~~ be invited into group discussion boards via email. Will only have access to chat with/leave messages within their group tabs.

- if there could be a feature in their chats to invite, they could enter mentor email here. If too much work, scrap it. They can always email them directly.

## Priorities

1. Student profile/login access
2. ability to upload docs
3. ability to upload mentor/student contact info
4. resource list upload capability - end of March
5. Student group tabs/message board - end of March

} March 3?  
or 10
